

With the Internet readily available, we are often asked 'Why should I use a Travel Consultant when I can research and book travel myself online?' The answer is very simple:

Personalized Service

We pride ourselves on sending you to places which we know are tried and true. We know it is important to experience resorts and cruises first hand before we suggest one. We take all the unwanted surprises out of traveling so you have an unforgettable experience.

Save you TIME

Researching the best destination or cruise which fits your style, needs and spending plan can take hours if not days. Tell us how you envision your dream trip and save your valuable time by letting us do all the work. We narrow down your travel options to make your dreams a reality

Save you Money

We have the most current access to reservations and sale systems. We have access to special pricing and availability not available to the general public. We always pass these savings and special perks to our clients when they are available.

Charlie Brown's TRAVEL

It is SIMPLE to work with us!
